- Track record of successful projects

Our interactive digital experiences **drive traffic, educate visitors,** and dramatically **increase engagement** at key industry shows.

"We had been looking to find a technology partner that could bring not only the most advanced touchscreen capabilities to our offerings, but be able to create unique, niche features that are distinctive for our clients and help them in achieving a competitive advantage. ViewPoint does that and more. They can design to scale, making touchscreen solutions affordable and accessible to clients who never thought it was an option."

— Michael J. Geljookian, Sacks Exhibits
